POTENTIAL RISKS

The Company's risk profile remains subject in part to the volatility caused by the escalation of conflict in the middle east, coupled with the ongoing conflict in Ukraine, associated supply chain issues and uncertainty around the impact of US tariff's. All of these issues continue to create instability and volatility in global oil and gas prices and has the potential to impact the Company's future royalty receipts.

In addition, future royalty receipts may be impacted by:

- any interruption to or suspension of production from ExxonMobil & Woodside in the Gippsland Basin with an impact to the Weeks Royalty; and
- changes to the value of royalty receipts as a result of US$ and A$ FX movements, oil and gas prices and the proportion of commodity sales that are hedged, unhedged and/or contracted, of which Fitzroy has no ability to control.

Fitzroy River Corporation Ltd (**Fitzroy**, **FZR** or **Company**) is pleased to report on its activities during the quarter ended 30 June 2026 (the **Quarter**).

1. Summary of announcements during the Quarter

Table 1: Summary of ASX releases during the June 2026 Quarter.

Date	Announcement
5-Jun-26	Update on Snowy River Gold Project
30-Apr-26	Quarterly Activities & Cashflow Report

2. Gippsland Basin – Weeks Royalty

During the Quarter, Fitzroy received a royalty payment through its wholly owned subsidiary, Royalco Resources Pty Ltd with respect to the 31 March 2026 Quarter of $116,897. The royalty with respect to the June 2026 Quarter is expected to be received during September 2026. Total royalty revenue received from the Weeks royalty for the 12 months to 30 June 2026 is $551,260 (PCP: $633,379).

Woodside assumed operatorship from Esso Australia on 1 July 2026. It advised in April 2026, the Turrum Phase 3 Project commenced drilling five additional wells at the existing Marlin B platform.

Fitzroy holds 1% of a 2.5% royalty (the 2.5% Royalty is known as the Weeks Royalty).

Full details of Woodside's activities and announcements can be found at: www.woodside.com/what-we-do/operations/bass-strait and www.woodside.com/media-centre/.

3. Canning Basin & Lennard Shelf Royalties

3.1 Buru Energy Limited (Buru)

Buru is focused on the development and commercialisation of the Rafael Gas Project, based on Buru's wholly owned and operated conventional gas and condensate discovery in the Canning Basin of Western Australia. The Rafael Gas Project is targeting a Final Investment Decision (**FID**) by June 2027 and is expected to deliver material and enduring cashflows from late 2028/early 2029 and create long term value and growth opportunities for Buru shareholders and stakeholders[5].

Buru's Ungani oilfield assets remain under a care and maintenance program. The restart of Ungani production requires the renegotiation of certain commercial terms pursuant to the existing Ungani Native Title agreements and requisite field management regulatory approvals.

In its announcement released on 17 April 2026[6], Buru confirmed that it had raised $5.3 million from existing shareholders and a selection of domestic and global institutional investors who are highly supportive of the Company's strategy to advance the Rafael Gas Project via the most value accretive pathway for shareholders.

Full details of Buru's activities and announcements during the Quarter can be found at: www.buruenergy.com.

Fitzroy holds a 2% net well head royalty over the tenements in the Canning Basin Royalty Deed, and a 3% net well head royalty over the tenements in the Lennard Shelf Royalty Deed. (See items 7.2 and 7.3 below).

4. Bowden's Silver Project

The Bowdens Silver Project (**Bowdens**) is located in New South Wales, approximately 26kms east of Mudgee. Bowdens is the largest undeveloped silver deposit in Australia, with substantial resources and a considerable body of high-quality technical work already completed. Bowden's Silver is owned and is being developed by Silver Mines Limited (ASX: SVL).

On 26 May 2026[8], Silver Mines announced the acquisition of approximately 3,345 hectares of freehold land, which when coupled with existing leases and land access agreements, covers the entire Bowdens Silver Project area, including a substantial buffer area.

Post the quarter end, Silver Mines made 2 significant announcements:

1. On 2 July 2026[9], Silver Mines confirmed that an updated Biodiversity Development Assessment Report has been submitted, marking a major step in the development approval process; and
2. On 21 July 2026[3], Silver Mines released the results of the Definitive Feasibility Study for Bowdens.

Fitzroy has a 2% Net Smelter Return reducing to 1% after the receipt of US$5 million, generated from the sale of any silver or other ores, concentrates or other primary, intermediate product or any other mineral substances (**product**) produced from within EL5920.

5. Snowy River Gold Project - Snowy River Mine

The Snowy River Gold Project (**Project**) is located near Reefton, on the West Coast of the South Island of New Zealand and is being developed by Endura Mining Pty Ltd (**Endura**), who holds 100% of the Project. The Project hosts probable Ore Reserves of 244koz of gold grading 6.03g/t Au and Mineral Resources of 795koz of gold grading 23.1g/t Au[10].

Fitzroy holds a variable 1-3% (3% if the gold price is greater than NZ$900) Over Riding Return Royalty ('Royalty') over the Project. This reverts to a 1.5% Royalty upon a production threshold of 389,915 ounces being reached.

Endura (via its wholly owned subsidiary Tasman Mining Limited (**Tasman**)) held an option to buy-out the Snowy River Royalty. The option to buy-out the Snowy River Royalty was exercisable at any time until a "decision to mine" occurred, which is defined as being a date which is 20 business days after the date on which Tasman:

1. has access to sufficient funds to complete the development of the Snowy River Project (including construction of the Plant) and to proceed to commercial production; and
2. holds in its bank account sufficient funds to pay the Buyout Price.

As announced on 30 March 2026, Fitzroy (via its wholly owned subsidiary Royalco Resources Pty Ltd) received A$12,265,134 payment from Endura on behalf of Tasman, stated to be in connection with Tasman exercising its option to acquire the Snowy River Royalty.

If the buy-out option had lapsed and was therefore not validly exercised and the Snowy River Project proceeds to commercial production, Fitzroy will remain entitled to receive payments under the Snowy River Royalty in accordance with the royalty deed.

Based on currently available public information, the value of the ongoing Snowy River Royalty is likely to be worth materially more than the A$ 12,265,134 buy-out price in particular, that it expects to produce 60,000 ounces of gold per year for over 10 years; and has an exploration budget of NZ$4.5 million to grow the resources and extend the mine life[11].

Based on publicly available information, Fitzroy believes that the option may have lapsed. Accordingly Fitzroy requested and received further information from Tasman in an effort to determine whether a "decision to mine" had occurred in the second half of calendar year 2025. If a decision to mine occurred during calendar year 2025, Tasman's right to exercise the buyout option would have lapsed at that time, and Fitzroy would remain entitled to the Snowy River Royalty in accordance with the royalty deed.

To date, the directors of Fitzroy have not been able to conclude with any reasonable level of certainty that the option remained exercisable at the time Tasman made the payment. Accordingly, on 5 June 2026 Fitzroy commenced proceedings in the New Zealand High Court seeking declarations to resolve this matter.

Full details of Endura's activities and announcements can be found at www.enduramining.com

6. Sam's Creek Gold Project

The Sam's Creek Gold Project (Sam's Creek) is located approximately 140 kilometres north-east of Reefton, on the north-west coast of the South Island of New Zealand

- On 25 March 2026, Exploration Permit (EP 40338) expired and was replaced with a mining permit application (MPA 61324). While the Mining Permit application is being considered, the previous Exploration Permit remains valid.
- On 20 May 2026[7], Siren advised that the mining permit application (MPA 61324) has been declined. Siren is reviewing the decision and assessing the options available to it, including any potential right of appeal.

Through its wholly owned subsidiary Royalco Resources (No 1) Pty Ltd, Fitzroy held a 1% royalty on all product (gold, ores, concentrates or other minerals) produced from the Sam's Creek Gold Project. Fitzroy has been advised that unless Siren is successful in having the permits reinstated, the royalty will cease to exist.

Full details of Siren Gold's activities and announcements can be found at www.sirengold.com.au or via the ASX announcements platform.

7. Details of Royalties

7.1 Canning Basin Royalties

Fitzroy holds royalty interests in several permits in the Canning Basin originally acquired via 2 separate Royalty Deeds:
(i) the Canning Basin Royalty Deed; and
(ii) (ii) the Lennard Shelf Royalty Deed.

[12] The Expiry date of tenements is the date recorded against this tenement in the WA Department of Mines. Generally, if Exploration Tenements are not converted to production licenses, there is a requirement to relinquish some of the tenement. This is a matter between the licensee and the Department of Mines.

[13] Gulliver Productions Pty Ltd is a 100% subsidiary of ASX listed Rey Resources Limited (ASX: **REY**).

[14] Fitzroy is monitoring the activities on the 'Backreef Area' of EP 129 and L6, particularly those of Emperor Energy Ltd (ASX: **EMP**) (formerly Oil Basins Ltd). It is understood that Buru holds 100% of the Backreef Area on trust for Emperor Energy Ltd due to the completion of the drilling of the East Blina-1 well on 31 October 2012 in accordance with the 'Backreef Play Agreement' dated 30 October 2008. Until such time as a deed of covenant is executed, the contractual relationship governing the 3% royalty obligation (which is registered against EP 129 and L6) is between Fitzroy and Buru alone.

7.4 Other Royalties

Schedule of royalty interests held through the Company's wholly owned subsidiary, Royalco:

Project	Operator	Royalty	Commodity
Weeks	ExxonMobil/Gippsland Basin JV (Esso Australia Resources Pty Ltd and Woodside Energy Pty Ltd)	1% of 2.5%	Hydrocarbons
Snowy River Gold Project	Endura Mining Pty Ltd (**Endura**). ▪ A$12,265,134 received during the March 2026 Quarter in connection with Endura/Tasman's option to acquire Fitzroy's royalty over the Snowy River Gold Project. Refer to FZR ASX announcement dated 30-Mar-2026[15]. ▪ Fitzroy was unable to determine whether the buy-out option was validly exercised. Proceedings have commenced in the New Zealand High Court seeking declarations to resolve the matter.	1-3% ORR	Gold
Bowden's	Silver Mines Ltd (SVL)	1 – 2 % NSR	Silver and other ores.
Lachlan Fold Belt (Molong)	Regis Resources Ltd (RRL)	3% NSR	Gold, copper
